WEDNESDAY, AUGUST 15. 1739.

1293.

Following Foreign Articles were omitted in our last, for Want of Room.

Kaminiack, July 15. O. S.

THE Tartars who are entered into Podolia commit sad Ravages there, which 'tis apprehended will be soon followed with a Famine, and the infallible Destruction of that Palatinate; for they burn and destroy all the Corn and other Grain which they find there, have plundered

Villages and Country Seats, and carry off all Cattle and Horses they meet with; and to complete the Ruin of the Country, several thousand Turks are expected to glean after the Spoils of the Tartars. An Engagement is speedily expected between the Russian and Turkish Fleets in the Black Sea.

Vienna, July 28. O. S. The Action at Panczova was not so hot nor so considerable as was at first reported. 'Tis said there were but 30 wounded on the part of the Imperialists, and some Hundreds killed and taken on the part of the Turks, who are retired to Alanka, where they expect a Reinforcement of 50 Janissaries, and 'tis believed, that after its Arrival they will again go in quest of the Imperialists. The Grand Army of the Turks continues to batter, and with very little Damage; and they have erected several Batteries, they are but of 4 each, and the Garrison has already dismounted two, and very much damaged the others. According to a List of the Killed and Wounded in our Army at the Action of Crotzka, there were 1741 Officers and Soldiers killed, 794 wounded, 1565 sick, and 619 wounded; but as for the Loss of Infantry, we have not yet the List. As to the Report of the Death of the Major-General the Prince de Lutsk, of his Wounds in that Battle, we hear from the Surgeons that he is happily extracted of Ball out of his Body, and that he is gone to Teutmer till he is cured. The Count de Wallis has sought fit to put 4 Battalions more into Belgrade, so that there are now 16 in the Place.

Zwanick, July 16. O. S. The Russian Army advanced 3 Days ago towards the Niefter opposite to Sorka, and last Night a great Body of Turks and Tartars arrived in its Neighbourhood, so that the news of an Action is still expected.

Warsaw, July 28. O. S. People here are strongly of Opinion, that the Russian Army has had an Engagement with the Turks or Tartars, the rather because Letters of the 20th from Kaminiack say, that on the 18th they heard great Firing of small Arms towards the Niefter, and that next Day they heard cannonading on both Sides distinctly.

Dresden, August 2. O. S. Yesterday Advices from Poland speak of an Action that there has been between the Russians and the Turks or Tartars near the Niefter.

Isfahan in Persia, April 8. N. S. The Nation of the Leiguis has invaded the Northern Provinces of this Kingdom; and the Aghuans, notwithstanding the Reduction of the Principality of Candahar, persist in refusing to acknowledge Thamas Kouli Kan for their Sovereign. The Inhabitants of Acidada de Masfate, a Town on the South Side of the Persian Gulph, over-against Ormus, are likewise revolted. This Place formerly belong'd to the Crown of Portugal, but afterwards fell under the Dominion of a powerful Arabian Prince; and lastly became tributary to the Sophis of Persia. Upon Advice that it refused to pay the usual Tribute to Kouli-Kan, this Prince sent Orders to the Governor of Schiras to repair thither, to reduce the Inhabitants to their Duty; and for this Purpose the latter put a good Number of Men on board several Ships, and went and attack'd the Town with very great Vigour; but the Inhabitants made a Salles with so much Success, that the aforesaid Governor, having lost in the second above 2000 Men, was obliged to re-embark for Schiras. All these Circumstances have render'd Kouli-Kan's Ear deaf to the Proposals of the Russian Court against the Porte, so that he has resolv'd to cultivate a good Harmony with the Grand Seignior more than ever; and we are assur'd that a Congress is to be held shortly at Erzerum, for the better establishing it.

Stockholm, July 22. O. S. Expresses often arrive here from the Court of France, which are immediately sent back with Answers to their Dispatches. Admiral Taube, who was at Carelskroon, where most of our Men of War are ready to sail, has been sent for to Court: And Orders are dispatch'd to two Regiments of Foot and one of Horse, that were coming from the Northern Provinces of this Kingdom, to suspend their March. The Marquis d'Antin, who sail'd Yesterday with the French Squadron, had not only a Present from the King of Sweden of a Gold-hilted Sword, but of a Snuff-box of the same Metal, adorned with Diamonds, and two very valuable Rings.

Vienna, July 28. O. S. An Express is just come from Hungary, with Advice that Prince Lobkowitz, in his March with 20000 Men to join Count Wallis, met with 8000 Turks, whom he entirely defeated. The Turks before Belgrade are increased to 70000 Men.

Petersburg, July 17. O. S. The English Merchants here had lately the Honour to congratulate the Prince and Princess of Brunswick Wolfenbuttle upon their Marriage. They were introduced by M. Rondeau, the British Resident; and Dr. Larnaut, an Englishman, made a satisfactory Compliment in their Name. The Lord Baltimore has been present at all the Entertainments made here upon the Occasion of the Marriage, and he has also seen the Czarina's Library, and the Imperial Chamber of Curiosities. Yesterday he embark'd again on board his Ship for his Colony of Maryland in America. Besides Mess. King and Desaguliers who go along with that Nobleman, he is accompanied by the Marquis Algaratti of Verona, a Gentleman of Eminence in the Republick of Learning.

We hear, that the Russian Cossacks, in their Expedition to the Turkish Territory beyond the Niefter, not only burnt Sorkka and Mohilow, but the little Town of Magilejew, and the Village of Balinetz, and took a considerable Booty in Money, Arms, Furs, and other Effects, besides Horses, Harness, Saddles, &c.

Paris, August 8. O. S. Some People here give out, that the Forces of the Spanish Monarchy amount to 60 Men of War, 34000 Seamen, 150000 Men of regular Troops, and 30000 Militia. Private Letters from Madrid take notice, that there have been Three Irish Ladies there for some time, who are protected by the Queen, and have often the Honour of conversing with her.

The last Ships belonging to our East-India Company have brought Letters from Surat, which confirm that Thamas Kouli-Kan, after he had taken Candahar, marched his Army into the Caboulistan, and took Caboul, the first Town belonging to the Great Mogul; and they add this remarkable Particular, viz. That before he made himself Master of the Place, 5000 Marty'd Women and Maidens kill'd themselves in Despair, for Fear of being ravish'd by the Persian Soldiers. 'Tis also said in these Letters, that Kouli Kan was making great Marches towards Deli, the Residence of the Great Mogul; that all the Mogul's Court was under an inexpressible Consternation; that they knew not how they should be able to resist that Conqueror, especially in the present melancholy State of Affairs in Mogul; that the Omrahs or Grandees of his Kingdom were divided; that they had render'd themselves in a manner independent, and that having by that Means so many opposite Interests, a speedy Revolution was expected; which seems to be the more certain, because Kouli-Kan has nothing to fear from the Great Mogul, who is a Prince educated in the Asiatick Effeminacy, and by Consequence incapable of animating his Subjects to stand their Ground.

The young Duchess of Bourbon is almost inconsolable for the Misfortune that beset her Brother the Prince of Hesse-Rhinels, in the late Action at Crotzka in Hungary. One of the French Volunteers in the Army has sent a Letter thither, with the following Particulars. 'The Action was the most sharp and bloody that has been known for a long Time. The Germans did Wonders; and their Valour was the more remarkable, because their Troops were far inferior in Number to the Enemy, who also fought with great Order, and in close

Bodies, without suffering themselves to be once broke thro'. They seem to be instructed in our Discipline, as well in managing their Arms, as in the Way of conducting an Action. Their chief Aim, during the hottest Part of the Battle, was to hem us in, but as we perceiv'd their Design we defeated it. We are return'd to Belgrade, heartily fatigu'd with this severe Day's Work, during which the Weather has been intolerably hot. Many of our Officers are missing, of whom some are kill'd and others taken Prisoners by the Turks. The Loss of the Imperialists cannot be less than 6000 Men.

Cadiz, July 10. O. S. Admiral Haddock, who cruises with his Squadron off of Cape St. Vincent, causes all Vessels that sail that Way to be visited; and from a French Ship which had a Spanish Passport he took certain Letters which were going to M. Vary from the Intendant of Galicia. Hostilities of this Sort seem to forbode a War with the English; nevertheless the Ships that compose the Flotilla are still lading, but in all Appearance their Departure will be suspended. There are now in this Bay but 3 English Ships. The Men of War equipped here are ready to sail as soon as they receive fresh Orders from Court.

Amsterdam, Aug 9. O. S. The Master of a Ship arrived in the Texel says, He met 4 of the Affogues Ships in the Spanish Seas, steering towards the Coasts of Biscay. The last Advices from Stockholm say, That the Marquis d'Antin sail'd on the 21st ult. with the French Squadron, to examine the Coasts of the Baltick Sea; during which one of the Men of War of 64 Guns, struck upon a Rock, and sprung a Leak; and that some Days before, the Senate held an extraordinary Assembly on such important and secret Affairs, that the Secretaries were obliged to withdraw, and the Chancellor of the Court officiated in their Room.

L O N D O N.

We hear from Mallow in Ireland, that on Wednesday, the First of August, being the Anniversary of his late Majesty's Accession to the Throne, there was a most elegant Entertainment given to the Ladies, by the Gentlemen in general, at the Long Room; there were present the Right Hon. the Lords Barrymore and Burret, and their Ladies; and several other Lords and Knights, accompanied by near 60 Ladies of Fortune; the Ball begun at Six, and at Eleven the Beaufets were opened: The Night was spent with great Satisfaction and Mirth, and concluded with Bonfires and other Demonstrations of Joy.

A Ship from Hispaniola is arrived in France, whose Captain reported, that on the 4th ult. N. S. he fell in with 4 Spanish Ships of War from the Havanna, and parted from them the next Day. They made no doubt of their being the Affogues; and, as this Report carry'd the Appearance of Truth, we may soon expect News of their being arrived, or taken by some of our Men of War.

Yesterday was held a Board of Admiralty, when their Lordships appointed the several Lieutenants belonging to the Boyne, Severn, Panther, Swift and Trial Sloops, lately commissioned; and they were sworn in and received their Commissions accordingly.

On Saturday next his Majesty will review Lieutenant General Sabine's Regiment of Welch Fusiliers, (lately new-cloth'd) on Ke-green, the necessary Orders being given for that Purpose.

Yesterday the Duke of Newcastle, one of his Majesty's Principal Secretaries of State, set out with a numerous Retinue, for his Seat at Halland in Sussex, where he will keep open House during his Stay there.

Yesterday a Fire broke out at a Gentleman's House at Blackwall, which had like to have done considerable Damage; but the Alarm reaching the Firemen here, near Threescore went down immediately in Boats, well-provided, and became by their Diligence and Industry the happy Means of extinguishing it, before it had done any great Damage.

To-morrow his Majesty's Plate of 100 Guineas will be run for on the Course on Lewes Downs in Sussex.

As the Tickets for the present Lottery are now delivering at the Bank, we hear that Mr. Wilson, of the Lottery-Office at the Corner of Craig's-Court, Charing-Cross, having made his full Payments, has provided himself with a large Number of the Tickets, to supply such Gentlemen and Ladies as are inclin'd to become Adventurers; he is now ready to exchange Tickets for Receipts given under his Hand; as likewise to divide them into Shares at Halves, Quarters, and Eighth Parts, after his Method so much approved of in former Lotteries. A Correct Register of the Lottery is now opened at his Office, where those Adventurers who enter the Numbers of their Tickets with him, shall have immediate Notice of their Success sent to any Part of the Town or Country.

Admiralty-Office, August 1. 1739.

HIS Majesty having been graciously pleased, by his Warrant under his Royal Sign Manual, dated the 10th of June 1733, to establish certain Rules and Orders for the better Government of the Charity for the Relief of poor Widows of Commission and Warrant Officers of the Royal Navy: These are to give Notice to all such Widows whose Husbands died on or since the 30th of August 1732, that Copies of the said Rules and Orders are lodg'd with the Commissioners of his Majesty's Navy, at Chatham, Portsmouth, and Plymouth; as also with the Clerks of the Cheque, at Deptford, Woolwich, and Sheerness; and with the Naval Officers at Harwich, Deal, and Kinsale; where they may be inform'd of all Particulars which entitle them to the Benefit of the said Charity, and receive the proper Certificates for that Purpose. But such Widows as live at too great a Distance from the Places above-mention'd, may apply by Letter to Thomas Corbett, Esq; at the Admiralty-Office, who will send them all necessary Information. And the Governors of the said Charity intending to distribute to the Widows of such Sea Officers who died before the 30th of August 1732, and whose Circumstances come within the Rules of the Establishment, their Share of the Bounty granted by Parliament; these are to give Notice of the same to all such Widows, that they may procure the proper Certificates and Affidavits, and send or bring them hither. And the Court of Assistants do hereby give Notice, that they will meet at this Office on Tuesday the 11th of September next, at Eight o'Clock in the Morning, to receive the Claims of such Widows as shall be qualified according to the said Rules and Orders.

Concerning Gleet and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, whether occasion'd by too severe purging for Venereal Injuries, Strains, Pollutio sui, or any other Cause, whereby that they are dangerous in their Consequences, as it is difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Melancholy, a Tabes Dorsalis, or Corruption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be afflicted with Old or Stubborn Gleet, Seminal Effusions, Intermittent Emissions, excessive Nocturnal Pollution, or any Weakness of the Kidneys, Urinary, or Bladder, the Difficulty of Urinary, or Difficulty of holding their Urine, would doubtless be glad to meet with a certain, speedy Cure, which they most assuredly may, by only a small Quantity of a transcendent Balsamick Restorative, now published for a general Cure, after having for many Years been experienced and found perfectly curing the most Stubborn Gleet, in a few Days, without Difficulty or Trouble, in all other Weaknesses of the Back, Reins, Seminal Vessels, Urinary Passages, which almost instantly cure, bring to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTORATIVE is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses of Constitution of any Kind, and particularly in the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inasmuch that in any Debility of them, one Dose does more than ten of any other Remedy yet found out, all Persons fatigued with Gleet or Seminal Weakness, of Sort, or Weaknesses of the Urinary Vessels, who take it, in three Days time find it so very effectual, that they will most agreeably be surpris'd at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in its praise. All who ever took it for any of the above-mentioned Purposes have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Effect, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the special Appointment, is to be had only at Mr. Mallet's Toy-Shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whosoever carefully reads will fully know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Maligancy the Foul Disease is entirely eradicated or not.

Note, Ask only for a 6s. Pot of Balsamick Restorative.

An Infallible REMEDY

For BROKEN-WINDED HORSES,

Which has been published and sold

many Years before any Counterfeits in any Form appeared; and highly commended from one Person to another. The vast Quantities that have been sold to verify its Efficacy and Virtues, for it most perfectly cures them, after all other Means have been exhausted, to a Wonder, in a small time, without any violent treatment; by attenuating and opening the Globules of the Lungs dried up, and all the Passages obstructed by Humours dripping thereon, occasion'd by hard Riding, Colds, &c. It causes presently a free Perspiration, renewing its Force, Vigour and Length again, as well as ever.

It immediately cures those Horses only a little troubled with their Wind, as also all continued Coughs, Colds, Whoops, &c. being excellent in preventing many other Disorders incident unto them, by maintaining, preserving, and continuing a good Breath.

And in a word, by this very Medicine alone, many Horses have been made so perfectly sound, that they have been sold and valued from 10 to 30 or 40 Pounds, which by long Broken-winded, could not before be sold for 3 or 4 Pounds.

It is sold at Mr. Sandwell's Toy-Shop at the Globe, in the Corner of Beckler's-Pury in the Poultry, at 2 s. 6 d. the Bottle, with Directions for taking it; and no where else in England.
